

Mid-Term Evaluation of the EFA Fast Track Initiative

**Draft Synthesis Report
Volume 2 – Annexes
Annex J: Interviewee Analysis**

21 November 2009

This report is based on the work of an independent evaluation team. It has been reviewed by the Evaluation Oversight Committee (EOC) which determined that it meets an objective set of quality standards for an evaluation of this nature (based in part on DAC guidelines and on DFID's quality assurance guidelines for programme evaluations) and that it sufficiently meets most of the EOC requirements for having satisfied the relevant portion of the terms of reference to be shared as a discussion document.

This determination in no way signifies the endorsement of the report's conclusions or recommendations by the EOC as a whole, by any of its individual members or by the agencies they represent. The analyses, interpretations and opinions expressed in this report are those of the evaluation team.

J1 People interviewed (face-to-face and by telephone) for the global level evaluation are listed below, against their principal affiliation vis-à-vis the FTI. More than 650 further individuals have been interviewed for the country studies and desk studies, but these interviewees are not included in the listing below. All interviews are systematically written up, so as to be available to all team members, and the team’s consolidated interview notes thus far run to more than 1,500 pages and over 700,000 words.

J2 Evaluation team members also observed the sessions of the FTI Steering Committee and its Catalytic Fund and EPDF committees at the meetings in Paris (September 2008), Oslo (December 2008) and Copenhagen (April 2009).
